

T-BOLT STYLE HOSE CLAMPS SIZING INDEX

► NOTES:

1.The way of choose T clamp:

Calculate your hose Outside Diameter : Hose Outside Diameter = Hose inner Diameter + 2 X Hose thickness

then you can calculate whether your hose is belonged to the clamp range.

2.If the clamp range is 86 mm-94 mm, the value of your hose Outside Diameter should be larger than the first value of the clamp range, less than the second.
